ARTICLE II ARCHITECTURAL CONTROL

Section 1 Development Objectives: The aesthetic and ecological quality of the Subdivision requires that all dwellings be compatible with other dwellings and be in harmony with the natural surroundings. To this end, an Interior Architectural Control Committee (sometimes hereinafter called "the Committee") has been created as described in Section 2 of this Article. The Interior Committee has the responsibility to carry out the goals and functions that have been adopted, and are described below, and which may be amended from time to time and to function in addition to that one certain other Architectural Control Committee serving the entire Great Northwest Planned Unit Development as it is composed from time to time (the "Umbrella Committee"), such Umbrella Committee having been created in that one certain Declaration of Covenants, Conditions and Restrictions of record in Volume 7783, Pages 598, et seq., affecting the entire Great Northwest (the Umbrella Declaration"). Any reference herein to "the Committee" shall be either to the Interior Committee or the Umbrella Committee, whichever said committee then has jurisdiction over a lot covered hereby pursuant to the provisions hereof or the Umbrella Declaration.

Section 2 Interior Architectural Control Committee: The Interior Architectural Control Committee shall be William D. Jackson, Greg Barrineau and Rowena Archer, or a representative or representatives appointed by a majority of them, or to another committee in the event the Interior Committee assigns its rights in writing to such other committee. In the event of the death or resignation of any member, the remaining members shall have full authority to carry out the duties of the Interior Committee and the authority to designate a successor committee member to fill any vacancies.

Section 3 Goal of Committee: The goal of the Committee is to encourage the construction of dwellings of good architectural design and quality compatible with Declarant's conceptual plan for the Subdivision. Dwellings should be planned and designed with particular attention to the design and aesthetic appearance of the exterior and the use of such materials as will, which, in the sole judgment of the Committee, create an attractive and harmonious blend with existing

and proposed dwellings in the immediate area and the natural surroundings. The Committee may disapprove the construction or design of a home on purely aesthetic grounds where, in its sole judgment, such disapproval is required to protect the continuity of design or values of the neighborhood and of other homeowners or to preserve the serenity and natural beauty of any surroundings. Prior judgments regarding matters of design or aesthetics shall not be deemed binding upon the Committee if the Committee feels that the repetition of such matters will have an adverse affect on the Subdivision.

Section 4 Function of the Committee: The Committee shall function as the representative of the owners for the purposes herein set forth. No building, roof, fence, wall or other structure of any nature whatsoever shall be erected, placed or altered on any lot (nor may any such item be subsequently replaced, treated or repainted in a manner which materially alters the exterior appearance of the dwelling) until plans and specifications, in such form and detail as the Committee may deem necessary, shall have been submitted to and approved in writing by such Committee. The Committee or its representative shall have the power to employ professional consultants to assist it in discharging its duties. The decision of the Committee shall be final, conclusive and binding upon the applicant. All submissions to the committee shall be at the address specified herein.

Section 5 Procedures of the Interior Committee: The Interior Committee may establish and publish from time to time reasonable administrative procedures and separate building guidelines to supplement these use restrictions. The address of the Interior Committee as of the date hereof shall be as follows: 1848 Lockhill-Selma Road, Suite 102, San Antonio, Texas 78213; and this address may be changed from time to time by the Interior Committee by its filing of an Address Change Certificate in the Real Property records of Bexar County, Texas. For information concerning the address of the Umbrella Committee, the Umbrella Association should be contacted.²¹

Section 6 Plans and Specifications: Review and approval of plans and specifications by the Committee shall be mandatory prior to any owner undertaking any improvements. In order that the Committee may give just consideration to the proposed improvement, such plans and specifications must adequately describe the site plans, floor plans, foundation plans, elevations and exterior materials, color and other characteristics of the purposed structure; and, if the Committee so requests, a preliminary landscape plan and a cross-section sketch through the lot from the property line, with the highest existing grade to the property line with the lowest existing grade representing any improvements and grade changes and their relationship to existing conditions of the site. Plans and specifications shall be in duplicate and must include all items required by the Committee (i.e., they may not be submitted on a piecemeal basis).

Section 7 Basis of Approval: Approval of plans and specifications shall be based upon the following:

- (a) The architectural and structure integrity of the design.
- (b) Harmony and conformity of the design with the surroundings both natural and built.

- (c) Adequacy of the design to conditions of the site.
- (d) Relation of finished grades and elevations to neighboring sites.
- (e) Conformity to specific and general intent of these Use Restrictions.
- (f) Aesthetic considerations determined in the Committee's sole discretion.

Written requests for variances shall be deemed to be approved if the Committee fails to approve or disapprove such variance request within thirty (30) days of the submission of such request. No member of the Committee shall be liable to any owner for any claims, causes of action or damages arising out of the grant or denial of any variance to an owner. Each request for a variance submitted hereunder shall be reviewed separately and apart from other such requests and the grant of a variance to any one owner shall not constitute a waiver of the Committee's right to strictly enforce the restrictions created by these Use Restrictions.

Section 9 Failure of the Committee to Act: If the Committee fails to approve or to disapprove the plans and specifications or to reject them as being inadequate within thirty (30) days after submittal thereof, it shall be conclusively presumed that such Committee has approved such plans and specifications. If plans and specifications are not sufficiently complete or are otherwise inadequate, the Committee may reject them as being inadequate or may approve or disapprove them in part, conditionally or unconditionally, and reject the balance. The approval of the Committee to any submitted plans and specifications shall not be deemed as the approval of the Committee to any other items not expressly and specifically covered by such submitted plans and specifications.

Section 10 Limitation of Liability: The Committee shall have the express authority to perform fact-finding functions hereunder and shall have the power to construe and interpret any use restrictions herein that may be vague, indefinite, uncertain or capable of more than one interpretation. All decisions of the Committee shall be final and binding, and there shall be no revisions of any action of the Committee except by procedure for injunctive relief when such action is patently arbitrary and capricious. Neither the Declarant, the Committee, nor any member of such Committee shall be liable in damages or otherwise to anyone submitting plans and specifications for approval or to any owner of land affected by this Declaration by reason of mistake of judgment, negligence or nonfeasance arising out of or in connection with the approval or disapproval or failure to approve or disapprove any plans and specifications.

Section 11 Assignment of Rights to Umbrella Committee: The Interior Committee shall have sole architectural control jurisdiction over any lot in the Subdivision prior to the time a dwelling has been erected thereupon and sold by its builder to the first home purchaser. Notwithstanding any other provisions herein contained to the contrary, any rights and/or duties of the Interior Committee as to each such lot in the Subdivision shall pass and be deemed as assigned to the Umbrella Committee for all purposes at such time as construction of the initial dwelling to be situated on such lot has been completed and has been conveyed to the first home purchaser. Thereafter, the Umbrella Committee shall have sole jurisdiction over such lot and shall enjoy exclusive architectural control rights created either by this instrument or by the Umbrella Declaration.
